INMEX SMM India in Media

Mazagon Dock CMD Vice Adm Narayan Prasad suggests bold steps in trials & testing of Scorpene submarines

The head of Mazagon Dock Shipbuilders Ltd, assets the government to take 'bolder steps' for submarine manufacturing in the country.

Prasad said that submarine building has two components - "technology and know-how".

"Submarine means zero's absorption. In fact, after the second Scorpene class submarine, I did not want any assistance. The remaining four are made ourselves," Prasad, a 30-year veteran of the Indian Navy, told ET. He has a role of 'mentoring' that they would get along with over the technology," the CMD of MDSL said.

The remaining four are made ourselves," Prasad, a 30-year veteran of the Indian Navy, told ET. He has a role of 'mentoring' that they would get along with over the technology," the CMD of MDSL said.

The French Group said that the Request for Proposal (RFP), "imposes that the bidder be fully capable of performing the work and that the bidder must use the same site as we get done the French Navy does not use such a procurement system."

They often OEMs are also understood to have tried the same process but to participate, having RFPs and L1s with just one foreign strategic partner in France then.

When asked about this, the CMD of MDSL said, "This is talking about something which is the most controversial subject to defence manufacturing. I do not want to be seen talking about it. There are a higher relative subject. I would avoid it as soon as possible. The government is also talking to study different at this point to have, but certainly anything are being made to make a breakthrough".

The CMD of MDSL, attached to state-owned defence technology research.

"I was just completing my last of the six (Scorpene-class) submarine (for the Indian Navy) in collaboration with a French company, the Naval Group. They have a role of 'mentoring' that they would get along with over the technology," the CMD of MDSL said.
